
What is Senior Care Management?

Care management is planning for support for seniors so they can be as independent, safe and healthy as possible.

You may benefit from Care Management if you answer "Yes" to any of the following questions:

- Are you feeling overwhelmed and stressed trying to manage problems that are becoming bigger and more complicated than you can comfortably handle?
- Do you lack the time and skills to manage the challenge of complex care needs?
- Is it becoming more difficult to handle your own personal, work and family obligations while trying to manage care for a loved one?
- Is all of this complicated by living at a distance ?

Senior Care

Our care managers are trained, professional social workers who plan and coordinate the care of your loved one. They have years of geriatric care experience and specialized training to inform the planning and decision making process. The care manager is in regular contact with family members providing updates and any status changes of your loved one.

Our care managers:

- arrange and coordinate services
- assist with government programs when necessary
- provide medical referrals to specialists in geriatric care
- provide legal referrals to professionals in estate planning, advance directives, and powers of attorney
- help with decisions related to where to live, optimizing social benefits, safety and security and planning for level of care changes
- arrange day programs and respite care to support the primary caregiver's need to attend to his or her own health, career, or personal needs
- Home delivered meals
- Transportation
- Planning for future care needs

Supporting Seniors and their Families

If you are responsible for the care of an older person, Covenant Connections is here to help. CCHC addresses the health and well-being of our clients in a holistic manner. While physical health and medical care are important, we also value the importance of social connections, mental stimulation, emotional well-being, and spiritual contentment. Your Senior Care Manager will address each of these needs to strive for the best possible quality of life. Our managers are resourceful experts that you can trust. You can have peace of mind knowing your loved one is in good hands.
